Working across many sectors including Retail, Finance, Leisure, Telecommunications and Publishing to name a few, this is a great opportunity for a Conceptual Designer / Digital Designer to play a first-hand role in the design process for high profile projects that range from Flash-driven applications through to dynamic websites, social networking solutions and beyond.

Joining a talented team of industry specialists, your key role will be to understand technical requirements, translating client requirements into stunning designs and interactive (Flash) work. Surrounded by project managers, and working with grow's in-house and 3rd party developers and other creative's, you will collaborate to brainstorm ideas, produce concepts and finish designs that fall within client expectations and brand guidelines.

To qualify, your CV / Portfolio must show a strong appreciation for the following:

- Excellent creative skills: Someone who can form ideas from scratch into strong conceptual interface designs.
- A keen eye for layout and typography and knowledge of what works best online.
- A creative flair with motion: The ability to create animated flash or video sequences that are timed to perfection.
- A solid understanding of HTML, DHTML, actionscript, CSS, Flash, Dreamweaver and usability of all the latest web technologies and using this knowledge to enhance your design work.
- Full knowledge and experience of Adobe, CS4, Photoshop, Illustrator, InDesign,

You are somebody who lives and breathes digital and social media. You will be working in a dedicated digital team producing a variety of web/micro-sites, banners, Email, advertising creative and mobile marketing. It also important that you are immersed in the digital space and understand the benefits of social media, through twitter and the like.

Ultimately the right candidate should be able to demonstrate their design skills and show examples of projects they have worked on. You should be comfortable working within small teams as well as using your own initiative; show aptitude for solving creative problems; and have a passion for design in general.

You will be joining a passionate, talented and enthusiastic business that thrives on the challenges that working with high profile clients brings.

In return, expect a competitive salary, benefits and an enjoyable, fun, fast-paced working environment. Get in touch... careers@growqatar.com and send us your portfolio as a PDF with links to your online work as well.
